5. **Rebate check is mailed to applicant.**

PROGRAM CONTRACT

Terms and Conditions:

- Applications must be signed by the property or business owner and/or the person listed on the water bill for that address. Applications for toilet replacement must be signed by property owner.
- The toilet to be replaced must have been installed prior to 1994 and have flush volumes exceeding 1.6 gallon per flush. The new toilet must meet California Green Building Standards that has a 1.28 gallon per flush requirement. The washer to be replaced must have a water factor (WF is the number of gallons needed for each cubic foot of laundry) of more than 6.0. The information for individual washer makes and models can be found online at https://www.energystar.gov/productfinder/product/certified-clothes-washers/results
- Replacing an older ULFT (ultra low flush toilet) / HE (high efficiency) toilet for a new HE toilet does qualify for rebate.
- Applications are processed in the order they are received and are limited to one per customer and by available funding.
- Rebates may not exceed the cost of the appliance or fixture (tank, bowl, hardware, wax ring, and seat only). Installation costs are not covered.
- Applicants are subject to pre and post on-site installation verification. Applicants will not receive a rebate until post-inspection has been completed.
- Eligible properties may not have current delinquencies on their water/sewer bill.

I certify I am using the approved items on the property listed, the information on this application is true and correct, and I have read, understand and agree to the terms of the program as stated above.
